Cardboard Story Wheels

Photography by Will Ellis.

Materials

- Cardboard
- Markers
- Color Paper
- Scissors
- Awl
- Brass fasteners

1. Using three pieces of cardboard, divide up the surface of each one like a pizza with a marker and ruler.
2. In the sections of the first piece of cardboard, write the subject of a sentence. Examples can be “My mother”, “The spaceship”, “The spider” etc.

3. In the sections of the second piece of cardboard, write the action of a sentence. Examples can be “flew over”, “created”, “became” etc.
4. In the sections of the third piece of cardboard, write the object of a sentence. Examples can be “a rainbow”, “a supernova”, “the leader” etc.

5. From cardstock, make three pointers consisting of a long triangle with a hole punched in the middle.
6. Using an awl, punch a hole in the center of each piece of cardboard. Place the pointer on the center of the cardboard, and secure it by putting a brass fastener through the hole.

7. Spin to create a random, funny sentence, and then draw it on a separate piece of paper!
